

FISHERIES MANAGEMENT

Trend of the '90s

Initiatives In Coastal Resources Management

RMCs: Pag-asa Para sa Pangisdaan

What is the Government Doing About Our Coastal Resources?

Plus:

Impact of Gasoline Price Hikes on the Fisherfolk Sector

COVER STORY

With the continuing destruction of our marine ecosystems and the increasing poverty in coastal communities, the time has become ripe to refocus our attention from fisheries development to fisheries management. While the government's past programs on fisheries development were geared toward short-term profit-making for the fishing industry, the concept of fisheries management, in contrast, is bent not only toward the long-term use and conservation of our marine resources but also toward providing equitable access opportunities for the poor fisherfolk in the extraction of marine resources.

The Tambuyog Development Center would like to emphasize this need for refocusing through this issue of the Lundayan Magazine.

The *Lundayan Magazine* is published quarterly by the Tambuyog Development Center (TDC). It seeks to present, dissect and discuss issues concerning the fisherfolk.

Manuscripts and photographs are welcome. Manuscripts should be typewritten double-spaced, with generous margins. Address all contributions to:

The Communications Desk
Tambuyog Development Center
Room 108-A PSSC Building
Commonwealth Avenue
Diliman, Quezon City

For subscriptions, write to the above address or call 9229621 local 346.

TABLE OF CONTENTS

Philippine Initiatives in Coastal Resources Management. Coastal resources management is bound to take over the course of Philippine fisheries. Norman Kalagayan traces the history of coastal resources management in the Philippines.	2
RMCs: People's Agenda for Progress. One of the strategies to implement coastal resources management is through Resource Management Councils (RMCs), which is one of the agenda being carried by the Nationwide Coalition of Fisherfolk for Aquatic Reform (NACFAR) for the '90s. Lundayan sheds light on this concept.	8
Government Acts on Coastal Resources. Updates on the CRM component of the Fisheries Sector Program of the government.	12
Eco-Focus: Coral Reefs	14
Oil Prices Soar, Fisherfolk Sore. The increase in oil prices has affected all sectors of society. Eli Guieb III probes deeper into its effects on the fisherfolk sector.	17
Limang Kagyat na Kahilingan ng Mga Mangingisda.	24
Tire Reefs — Friend or Foe?	27
The Tale of Taal. The abundance of Taal Lake is fast becoming a thing of the past. Sadly, the government is doing little about this. Gladys Hingco delves deeper into the story.	29
